

Special Notice

Because we are a public marina owned by the city, we are governed by some of the same rules of access as a public park. The public will always have access to the non rented parts of our facility. In addition, throughout the year there may be functions held on the marina that will restrict parking for tenants. These events are permitted through the marina, the PCPD and passed on by the city council. A few of these events may shut down driving access. During these times we make every effort to transport you & assure you can get to and use your boat, but we want you to realize that this can & will happen. Two of the bigger events are the Spring boat show & the Fourth of July celebration. Tenants on Piers 5 & 6 may even be required to move their boats for the boat show. We will furnish you a suitable slip for that weekend. We appreciate your cooperation.
